Mines and Mining Stocks

OHIO COPPER

Entire Issue Disposed of in New York on Monday-Heinze Is Out.

Brokerage interests in this city yesterday received word by wire from the east that the placing of all of the unissued bonds of the Ohio Coper company was arranged in New York on Monday and that the money derived from their sale that the money derived from their sale again would be immediately available. Details world. were not received, but the statement is-sued on the 19th of the present month by the company stated they were then being underwritten. The statement also con-veyed the information that \$400,000 of the \$1,600,000 issue had been taken by stock-holders of the company, so the amount sold on Monday was \$1,200,000. These bonds are convertible into stock of the company at par, so that one bond of \$1,000 will buy 169 shares of the company's stock. Whether or not the company is to receive its money for the bonds in a lump sum was not stated in the dispatch, but

COPPER STOCKS IN **BOSTON AND NEW YORK**

Following is the daily market comment of Paire, Webber & Co., Boston, together wit lithe range of prices of copper stocks and other Boston listings in which the west is interested, as well as a similar report on New York curb transactions, by James A. Pollock & Co., and from which it is secured for use in this department of The Herald.

Boston. Sept. 22.—Heavy selling continued all morning and prices broke badly in the case of Reading, Union Pacific and Louisville & Nashville. Steel was weak and affected the whole list. In the late dealings snorts covered and crused a good rally. The prices were very erratic, however, and will be lower again in a day or two. Buy only on the shadp breaks and lighten up on every strong spot. We are not yet through with this campaign and there will be plenty of chance for barthere will be plenty of chance for bar-gains later. Some of the low-priced ones are beginning to look attractive and we strongly advise picking up Greene-Can-anea, Lake and Shannon. They have had the reaction they are entitled to and will show some easy profits for a small amount invested, as soon as the turn

PIERCE **GREAT ARROW**

Uniformly Good

Those words are quickly read, but they mean a lot when applied to an automobile. They mean good PIERCE GREAT ARROW stands today. It was one of the best seventy years ago; it was last year, and will be next year. Ask any owner of a PIERCE GREAT ARROW what satisfaction he has had from his car. We have all the 1909 specifications.

TOM BOTTERILL AUTOMOBILE CO. 62-64 West Third South.

STEVENS-DURYEA CHALMERS-DETROIT whether it is or not, so long as it comes fast enough for the completion of the big mill and the farther opening of the mine makes little difference, and it is a sure thing that the management would not have closed a bargain that meant anything less

It was reported yesterday through Boston that F. A. Heinze was no longer in control of the Ohio Copper company, and that statement was verified here during that statement was verified here during the day by competent authority, though not officially. He is not out of the company, by any means, but he has surrendered enough of his stock to make it possible for others to dictate the policies of the company, and that fact, most likely, is what has made it possible for the company to secure the money on its bonds. While many mining men here had hoped that Mr. Teinze would not be compelled to surrender the control of Ohio, they declare his doing so for the benefit of those who were associated with him in the undertaking shows the kind of mettle

AMERICAN SMELTING TREATMENT OF PRODUCERS

In his interview the other day Daniel

object that his made it possible for the company to secure the money on its obneds. While many mining men here had boped that Mr. Heinze would not be compelled to surrender the control of Ohio, they declare his doing so for the benefit of those who were associated with him in the undertaking shows the kind of mettid he is made of. And they declare, also that he will yet retrieve his fortune and sapin become a power in the mining world.

MINING STOCK EXCHANGE.

Day by Day, Point by Point, Market Continues Its Downward Trend.

There is apparently no rallying power behind the 'ocal mining stock market, and prices are simply drifting along closer and closer to the barren shore it other than that the public is not playing power it that the that the public is not playing power it than that the public is not playing power it than that the public is not playing power it than that the public is not playing power it than that the public is not playing power it than that the public is not playing power it than that the public is not playing power it than that the public is not playing power it than that the public is not playing power it than that the public is not playing power it than that the public is not playing power it than that the public is not playing power it that the public is not playing power it that the than that the public is not playing power it than that the public is not playing power it that the interest will grow in an amendation of the process and that the Garfield samelet was ready to take any amount of or or offered and at the Garfield samelet was ready to take any amount in the undertaking shows the kind of metric for properties of or or of freed and at the Garfield samelet was said "Last year the American company's chiekens began coming home to roost." Part of the American company's competition has hot yet, it is underly to and it may be said, at John T. Jones is the proposition being on equipping that his furnaces. If it ill work anywhere, ir mine owners and n idea of what the llowing paragraphs scount of the new attion in iron ores is ion in iron ores is a profit at \$6, and with fewer penalties attached, at that, and the miner refused,

ace at Iron Mounense tube nine feet

y spur gearing. It
is lined with fire
al feed from the
er. The raw ore. greater tonnage of ore than the American company's Murray plant can smelt. It finds answer in the opening up of the smelter at Ogden. It is found in the fact that the United States company, though it is still holding up prices, is getting much of the business that would naturally have gone to the American company. It is found, also, that plans are maturing for the construction of other smelters to handle ores that the owners declare shall never go to the American

pig iron daily. A furnace of equal capacity would cost about \$1,000,000 if built along the regular lines. Furthermore, the Jones furnace can be loaded on three flat cars by cutting the rivets, removed to Guggenheim will find it out by and by."

ORE IN BARNEY'S GULCH. NORTH OF BINGHAM

That Barney's Canyon will be one of the liveliest camps in the district here is the assertion of several mining men who have been over there recently, says the Bingham Bulletin. The Eagle Bird Mining company property in Barney's has some of the best showings in the canyon. Quite a little work has been done on these properties, and the management are these properties, and the management are very sanguine over the ultimate success of the property. The ore runs very high in lead, and in some places comes right up to the surface. The Eagle Bifd people are figuring on doing some extensive development work very soon and expect that it will be fruitful of results. Superintendent George Yeadon has been doing some work all winter and summer and is very well satisfied with the showand is very well satisfied with the show

and is very well satisfied with the showing made.

Adjoining the Eagle Bird is the property owned by Garret S. Wilkin and others.

Mr. Wilkin is of the opinion that Barney's Canyon will be a big producer. He
claims that on the group in which he is
part owner the best surface showings he
has ever seen in the district are in evidence. Lead, carbonate are algebrase. dence. Lead carbonate ore eight feet across coming up to the surface is the report that Mr. Wilkin brings. He was over there on Thursday and he is of the opinion that there is a great deal of rich

DOINGS OF UNLISTED STOCKS ON EXCHANGE

During the open board sessions of the During the open board sessions of the mining exchange yesterday East Crown Point sold at 2½c per share, Mineral Flat went at 15c, Silver King Coalition at ¾ and Utah Mine at \$1.70.

Ely Witch was quoted at 25c at 35c, Ohio Copper at \$3 at \$3.15, while Emma Copper was offered at 5c, Mountain Lake Extension at 6½c and Old American at 19c, with 18c bid for Naildriver and 15c for Uintah Treasure Hill.

Metal Market. Silver, 52c per ounce. Copper (cathodes), 13 5-16c per pound. Lead, \$4.60 per 100 pounds.

Mining Notes.

Four cars of ore from Utah mines and one from Nevada were released from the Pioneer sampler yesterday morning. There was released from the Taylor & Brunton sampling works yesterday six cars of ore from Utah and one from Idaho.

General Manager Lafayette Hanchett left for the Cactus properties of the Newhouse company yesterday morning. He will be gone a day or two. G. Martini, a mining man of Calumet, Mich., who is largely interested in Utah properties, was in the city yesterday on his way home from the northern country. He says he bought Daly West at \$40, but for all that he considers Utah about the best mining state in the country, barring Michigan, of course.

sheingan, of code.

Pioche Record.—F. H. Lerchen, representative of the United States Smelting company, is here this week looking over the different properties of the district, and obtaining estimates of ore ship-
